ABOUT THE CONCLAVE

Indian philosophy is one of the world's oldest and most profound knowledge traditions, rooted in the Vedas, Upanishads, Bhagavad Gita, and the classical schools of thought. It offers timeless insights into ethics, knowledge, consciousness, human well-being, and harmonious living. In the contemporary world, characterized by ethical challenges, environmental concerns, mental health issues, technological advancements, and social inequalities, the principles of Indian philosophy such as *Nishkama Karma*, *Ahimsa*, *Aparigraha*, the Middle Path, and Yoga provide meaningful perspectives for sustainable development, peace, and holistic well-being.

Aligned with the vision of the National Education Policy (NEP) 2020 and the Indian Knowledge System (IKS) initiative, this seminar aims to explore the contemporary relevance of Indian philosophical traditions through an interdisciplinary lens. It seeks to bring together scholars, academicians, researchers, and students to promote meaningful dialogue and demonstrate how Indian philosophy continues to offer practical and ethical solutions to the challenges of the twenty-first century.
